WE'RE MAKING OUR PACKAGING MORE SUSTAINABLE

We're transitioning from single-use plastic to paper-based packaging. As we progress, you may find a mix of paper and plastic in our boxes.

NOUS RENDONS NOS EMBALLAGES PLUS DURABLES

Nous passons des emballages en plastique à usage unique aux emballages à base de papier. Durant la transition, vous pourriez trouver un mélange de papier et de plastique dans nos boîtes.

QUEREMOS HACER MÁS SUSTENTABLES NUESTROS MATERIALES DE EMBALAJE

Estamos cambiando las bolsas de plástico desechables por bolsas con base de papel. Conforme avanzamos en este propósito, puedes encontrar una mezcla de papel y de plástico en nuestras cajas.

KATSUSHIKA HOKUSAI (1760 – 1849)

● Born in Edo (Tokyo), Katsushika Hokusai grew up under Samurai rule. With Japan's borders closed, foreign travel and influences were forbidden but a prosperous merchant class had both desire and means to travel within Japan and enjoy creative pleasures, theater and art. Hokusai started painting and drawing as a young child and later learned woodblock printing, a popular technique for mass-producing affordable art posters known as *ukiyo-e* – 'pictures of the floating world.'

Hokusai's woodblock art would reach far beyond his time and borders. He changed his name at least 30 times and is still affectionately known as the godfather of manga. Personal losses, illness, even being struck by lightning only refueled his creative determination. From portraits of Kabuki actors and celebrities to working people and landscapes, his artistic expressions and techniques kept evolving with humor and imagination. Over seven decades, he produced more than 30,000 works of art – among them *The Thirty-Six Views of Mount Fuji* – and inspired generations of artists to come.

● Né à Edo (Tokyo), Katsushika Hokusai a grandi sous le règne des samourais. Comme les frontières du Japon étaient fermées, les voyages à l'étranger et les influences extérieures étaient interdits. Toutefois, une classe marchande prospère possédait à la fois le désir et les moyens de voyager à l'intérieur du Japon et de profiter des plaisirs créatifs, du théâtre et de l'art. Hokusai a commencé à peindre et à dessiner dès son plus jeune âge pour ensuite apprendre la gravure sur bois, une technique populaire de production en série d'affiches d'art abordables connues sous le nom d'*ukiyo-e*, « images du monde flottant ».

L'art de la gravure sur bois d'Hokusai dépassera largement son époque et ses frontières. Il a changé de nom au moins 30 fois et est toujours affectueusement connu comme le parrain du manga. Les pertes personnelles, la maladie et même le fait d'être frappé par la foudre n'ont fait que renforcer sa détermination créative. Des portraits d'acteurs et de vedettes du Kabuki aux ouvriers et aux paysages, ses expressions et techniques artistiques n'ont cessé d'évoluer avec humour et imagination. En sept décennies, il a produit plus de 30 000 œuvres d'art, dont les *Trente-six vues du mont Fuji*, et a inspiré des générations d'artistes à venir.

● Nacido en Edo (Tokio), Katsushika Hokusai creció bajo el dominio de los samuráis. Entonces, las fronteras de Japón permanecían cerradas y estaban prohibidos los viajes y las influencias extranjeras, pero una próspera clase mercante tenía tanto el deseo como los medios para viajar dentro de Japón y disfrutar de los placeres creativos, el teatro y el arte. Hokusai comenzó a pintar y dibujar de niño y, más tarde, aprendió a imprimir en madera: una técnica popular para producir en masa pósters artísticos asequibles conocidos como *ukiyo-e* (en japonés, *cuadros del mundo flotante*).

El arte de las xilografías de Hokusai llegaría mucho más allá de su tiempo y de sus fronteras. Cambió su nombre al menos 30 veces y todavía se le reconoce cariñosamente como el padrino del *manga*. Su determinación creativa se vio reforzada por las pérdidas personales y la enfermedad, e incluso por el hecho de haber sido golpeado por un rayo. Sus expresiones y técnicas artísticas, que van desde retratos de actores de *kabuki* y celebridades hasta gente trabajadora y paisajes, siguieron evolucionando con humor e imaginación. A lo largo de siete décadas, produjo más de 30.000 obras de arte (entre ellas *Las treinta y seis vistas del monte Fuji*) e inspiró a generaciones de artistas.

FROM WOODBLOCKS TO LEGO® TILES

● *The Thirty-Six Views of Mount Fuji* is a series of 36 prints all showing Mount Fuji in different perspectives, from beaches, lakes, villages, fields and, in *The Great Wave*, from the sea. Hokusai's publisher commissioned the series as souvenir prints for pilgrims and tourists visiting Mount Fuji. *The Great Wave* eventually made its way across oceans and became one of the world's most recognized and influential works of art. Over 8,000 copies were printed from the original woodblocks, and it has been reprinted, reimagined and interpreted countless times ever since.

Hokusai loved to experiment with his art all his life. What if we could reimagine his work and the woodblock printing process with layers of colorful LEGO® plates and tiles? When we set out to design a delicate and respectful tribute to Hokusai's masterpiece, we wanted it to embrace his love of nature and color. We hope you will find joy in the details, lightness and textures and discover new dimensions in Hokusai's compelling composition.

DES BLOCS DE BOIS AUX TUILES LEGO®

● *Les Trente-Six Vues du Mont Fuji* est une série de 36 estampes montrant le Mont Fuji sous différents angles, depuis des plages, des lacs, des villages, des champs et, dans *La grande vague*, depuis la mer. L'éditeur d'Hokusai a commandé la série pour en faire des estampes souvenirs destinées aux pèlerins et aux touristes visitant le Mont Fuji. *La grande vague* a fini par traverser les océans et est devenue l'une des œuvres d'art les plus reconnues et les plus influentes au monde. Plus de 8 000 exemplaires ont été imprimés à partir des blocs de bois originaux et, depuis, l'œuvre a été réimprimée, réimaginée et interprétée d'innombrables fois.

Hokusai a aimé expérimenter avec son art toute sa vie. Et si nous pouvions réimaginer son travail et le processus d'impression sur bois avec des couches de plaques et de tuiles LEGO® colorées ? Lorsque nous avons entrepris de concevoir un hommage délicat et respectueux au chef-d'œuvre d'Hokusai, nous voulions qu'il reflète son amour de la nature et des couleurs. Nous espérons que vous trouverez le bonheur dans les détails, la légèreté et les textures et que vous découvrirez de nouvelles dimensions dans la composition fascinante d'Hokusai.

DE LA XILOGRAFÍA A LAS CUBIERTAS LEGO®

● *Treinta y seis vistas del monte Fuji* es una serie de 36 grabados que muestran el monte Fuji desde diferentes perspectivas: playas, lagos, pueblos, campos y, en *La gran ola*, desde el mar. El editor de Hokusai encargó la serie como grabados de recuerdo para los peregrinos y turistas que visitaban el monte Fuji. *La gran ola* acabó por cruzar los océanos y se convirtió en una de las obras de arte más reconocidas e influyentes del mundo. Se imprimieron más de 8000 copias a partir de las xilografías originales y, desde entonces, se ha reimpresso, reimaginado y reinterpretado en innumerables ocasiones.

A Hokusai le encantó experimentar con su arte durante toda su vida. ¿Y si pudiéramos reimaginar su obra y el proceso de impresión de xilografías con capas de coloridas placas y cubiertas LEGO®? Cuando nos propusimos diseñar un delicado y respetuoso tributo a la obra maestra de Hokusai, quisimos que abarcara su amor por la naturaleza y el color. Esperamos que encuentres alegría en los detalles, la ligereza y las texturas, y descubras nuevas dimensiones en la irresistible composición de Hokusai.
